PROFESSIONAL SUMMARY

Third-year Bachelor of Science in Information Technology student at Kisii University with practical experience in web development, software development and digital data tasks. Skilled in Python, Django, React, JavaScript, HTML, CSS, Bootstrap, PostgreSQL and MySQL. Experience includes freelance frontend development, data entry and microtasks. Built academic and independent applications including a house-hunting platform, hostel management system, school management system and point-of-sale system. Seeking opportunities in web development or data analysis to apply technical skills and grow professionally.

TECHNICAL SKILLS

Python • JavaScript • HTML & CSS • Django • React • Bootstrap • PostgreSQL • MySQL • Git & GitHub • Microsoft Office • Data Entry

SELECTED PROJECTS

HouseHunt — Django House-Hunting Application
Developed a property listing and house-hunting application with property management, search and filtering features, and responsive user interfaces.

Hostel Management & Booking System — Django
Developed a university hostel management system for managing hostels, rooms and beds, with booking and allocation workflows.

School Management System — Django & Python
Developed a school management application using Django and Python, working with database models and administrative functions.

Point of Sale (POS) System — Django & Python
Developed a web-based POS application with product and sales management functionality and database integration.

EXPERIENCE

Freelance / Independent Digital Work — Frontend Development, Data Entry & Microtasks
Completed freelance frontend development tasks using HTML, CSS, JavaScript and related technologies. Also carried out data-entry work and online microtasks, following task requirements and meeting deadlines.
